Shipping Point

ADAMS RUN, S. C.

Post Office

OSBORN, S. C.

Take U. S. Highway 17 to Intersection State Highway
174. One Quarter Mile South to Nursery.

TERMS OF BUSINESS

Cash or satisfactory reference must accompany all orders for immediate shipment. On orders booked for future delivery, 25% deposit with the order and balance due when shipment is made.

SUBSTITUTION

We will not substitute unless customer requests.

CLAIMS

Our liability ceases upon delivery to carrier of nursery stock, properly packed, and accepted by public carrier.

Should there be any errors in making up the order, claim must be made within 10 days from date of receipt of shipment. We will not be liable for more than the purchase price of the plants.

QUALITY STOCK

We pride ourselves on the healthy, vigorous plants that we grow. We are very careful not to send out stock unless we are certain it is true to name.

GRADING OF STOCK

Camellia Japonicas are graded as to height. Plants 12" high to 17" would be graded as 12"-18", etc.

Azaleas are graded as to the diameter of the plant across the top. Plants 4" wide and not over six inches, will be 4" x 6".

JENKINS' CAMELLIA GARDENS

CULTURAL INFORMATION

HELPS AND HINTS FOR SUCCESSFULLY GROWING CAMELLIAS AND AZALEAS

Camellia Japonica can successfully be transplanted from early September through March.

Azaleas can be transplanted the year around without injury. However, the best time is before they come into bloom, that is September through February.

SOILS PREFERRED

Good drainage is necessary. They should not be planted where water stands for long periods. A bed 12"x18" deep, of black fresh water pond muck is ideal, to this add well-rotted dairy fertilizer, or Azalea Special. Cottonseed meal mixed with the muck is very beneficial. However, do not use cottonseed meal as a top dressing unless thoroughly washed in with the hose immediately. Cottonseed meal will burn if not dissolved with water, injuring the roots of Azaleas.

INSECT AND DISEASE CONTROL

Camellias are attacked by several species of Scale insects. If the leaves on Camellias are spotted and streaked yellow, this is usually caused by Scale on the underside of the leaves. They should be sprayed with Florida Volk, one part to 50 parts water. Spraying should be done in the Spring or early Summer. Spray from the underside so that all of the leaves are covered with spray. A WARNING: Do not spray Camellias in late Fall or Winter; a sudden cold spell will often kill plants that have just been sprayed.

There is also a fungus disease known as Formopsis. This disease attacks the stem and branches of Camellias. It is apparent by branches shriveling and dying off, usually during the Summer months. To control, spray with Bordeaux Mixture before new growth starts, 8 pounds Bordeaux to 50 gallons of water; to this add 1¼ pounds Kayso. This will cling to the branches for months, preventing the spread of this disease.

Red spider attacks both Camellias and Azaleas. It is apparent by dropping of many leaves on Azaleas. Camellia leaves become rusty brown in color. Control with S. A. T. Dust, Sulphur Dust, Arsenate of Lead and Tobacco Dust, 8 pounds Sulphur, 1 pound Arsenate of Lead, 1 pound Tobacco Dust. Dust on early in the morning before the dew dries on the foliage. Dust from the underside of the leaves.

GENERAL CULTURE HINTS

Camellias and Azaleas thrive under the same conditions and culture. Keep them uniformly moist at all times. Do not drown them nor let them dry out completely. Success or failure will depend on the soil that you plant them in. Be liberal with good soil and fertilizer. Keep Scale and Red Spider under control at all times. Prune to keep the plants shapely. This should be done in Spring and Summer, not later than August 1st.

They will thrive either in partial shade or full sun. However, those planted in full sun must be kept mulched and properly watered. Kurume Azaleas will bloom much more profusely in dense shade than the Indica Azaleas. Azaleas and Camellias will bloom more profusely if planted in full sun. However, the flowers will fade and will not last as long as those planted in partial shade. Then, too, those in full sun will sometimes be injured by frost, while those in partial shade will have protection from the cold.

In conclusion, we urge you to plant Camellias and Azaleas. They are easy to grow, their profusion of bloom in the Winter and Spring is a constant joy to those who have these most popular Southern shrubs.

RARE CAMELLIAS

Group 1

1-C—Admiral Nimitz (Kishu Tsukasa)—New variety by Overlook. Very fine pink blossom resembling Laurel leaf; sometimes variegated. Grafts only. To 3'-4'.

2-C—Arthur Middleton—Large deep pink. Formal type, when full open shows stamens. Grafts.

3-C—Barbara Morgan—Dark red, mid-season, very large flower. Splendid for garden or exhibition. One of the best. To 15"-18".

4-C—Daybreak—Soft pink similar to Debutante. Late. Fine. All sizes.

5-C—Donkelaari—Exquisite flower. Semi-double red and white. The true form. Special prices 8"-12" and Grafts. To 3'-4'.

6-C—Donkelaari Eugene Lize—Peony form sport of Donkelaari. Same coloring. Exquisite form of color. Grafts. 24"-30".

7-C—Dr. Shepherd—Huge semi-double, loose peony, dark red, marbled white, forming a mass of golden stamens in center. 18"-24".

8-C—Dr. Allen Ames—A sport of the famous Imura White. A great improvement on that variety.

9-C—Duchess of Sutherland—Finest of all white. Large semi-double bloom. Exquisite formation. All sizes. 30"-36".

10-C—Eleanor Hagood—Medium size. Regular. Delicate, pale pink. When fully open has few stamens in center. Late bloomer. 3'-4'.

JENKINS' CAMELLIA GARDENS

11-C—Elinor of Fair Oaks—Variegated Vedrine. 15"-18".

12-C—Elizabeth Arden—Medium to large, semi-double white, striped rose pink.

13-C—Elizabeth Boardman—This is considered to be the best white seedling to come from Magnolia Gardens. Very large, semi-double, white with golden stamens intermixed in center. To 18"-24".

14-C—Elizabeth Grandy (Margaret Higdon)—Large, semi-double pink bloom, fading to almost white around edges of petals, with stamens intermixed. To 3'-4'.

15-C—Firebrand—One of our hardiest bloomers; ignores cold. Large, semi-double, scarlet red flowers. Conspicuous golden stamens in center. 15"-18".

16-C—Firebrand Variegated—Variegated form of this fine variety. Very hardy. Fine garden variety. To 15"-18".

17-C—Glen 40—Beautiful, large, deep flower of very dark red. Slow grower but one of the best double red Camellias. To 18"-24".

18-C—H. A. Downing—Large and beautiful blood-red. To 18"-24".

19-C—Imura, White—A hybrid from Alabama, semi-double snow white; flower 5½" to 6" in diameter, with yellow stamens in center. 3'-4'.

20-C—Jas. Hyde Porter, (Variegated)—Similar to Herme but larger. 18"-24".

21-C—Lady Charlotte—Pink. Outstanding semi-double, pale pink. Petals waved with white veins. 18"-24".

22-C—Lady Mary Cromartie—Large semi-double, deep rose-pink bloom of loose construction; stamens intermixed in petals. 3'-4'.

23-C—La Reine Variegated—Beautiful, semi-double flower 5 to 6 inches in diameter, deep pink to red, blotched with white. Very attractive and outstanding Camellia. 2'-3'.

24-C—Lady of the Lake—White, large, semi-double, fluted. Midseason to late. 18"-24".

25-C—Lucy Murray—Very full double large shell pink. Compact grower, small foliage. A beautiful formal camellia, late. New variety.

26-C—Madam Maintenon—Soft pink, very fine, large, semi-double. Mid-season.

27-C—Marion Mitchell—Very large; fine red semi-double, late. Exhibition and garden variety.

28-C—Marion Mitchell Variegated—Variegated type of Marion Mitchell. Splendid variety, late. 15"-18".

29-C—Martin Roberts (Kollock)—Peony form; dark red, very good. Rare. 15"-18".

30-C—Magnoliaflora—Magnificent semi-double pink. 10"-12", 12"-15" and grafts.

31-C—Margaret Walker—Large, semi-double, double white, striped pink, loose petals with a few stamens in center.

32-C—Mrs. Freeman Weiss—Pink, semi-double, loose formation. Splendid variety. 18"-24".

33-C—Marchioness of Salisbury—Unusual variegated. Odd color. Fine collectors variety. Late.

ADAMS RUN, S. C.

34-C—**Mrs. Charles Simons**—A large, semi-double white, loose construction, stamens intermixed. To 18"-24".

35-C—**Paeoniaeflora**—An extremely large, white peony-type bloom speckled with pink—sometimes they appear solid pink and some half pink and half white. 15"-18".

36-C—**Paulette Goddard**—Large semi-double red, very showy. Mid-season to late. 15"-18".

37-C—**Princess Irene**—Large rose-pink, semi-double with petaloids among stamens.

38-C—**Pink Eugene Lize**—Semi-double to peony form solid sport of Eugene Lize. 15"-18".

39-C—**Pink Duchess**—Pink sport of the famous Duchess of Sutherland. Large semi-double. Late.

40-C—**Priscilla Brooks**—Large semi-double to peony form. White with pink stripe. 12"-18".

41-C—**Rev. John Bennet**—Semi-double, showing stamens in the center, salmon-pink with beautiful veined petals, large flower. 2'-3'.

42-C—**Pearl Harbor**—Large, semi-double, bright red, very rare.

43-C—**Robert Norton**—Large, semi-double, white occasional pink mark. Early. 15"-18".

44-C—**No. 113 Tea Garden**—Large, semi-double, rose-pink with creped edge petals. 15"-18".

45-C—**Refugee (Haku-Raku-Tan)**—White, huge semi-double to peony form. One of the best whites, late. 18"-24".

46-C—**September Morn**—Japanese importation. Very early bloomer. Flower resembles that of Chandleri Elegans. 18"-24".

47-C—**Toki-No-Hogassame (Mrs. Bellingrath)**—Shell pink, color of Magnoliaflora. 12"-15".

48-C—**Vedrine**—Semi-double red, yellow stamens. Large flower, 8"-12" to 30"-36".

49-C—**Variegated Fred Saunders**—Variegated semi-double, medium sized flower. Mid-season to late.

50-C—**Victor Emanuel 2d (Blood of China)**—Large peony form of the most dazzling red; form of the flowers; is exquisite. 18"-24".

51-C—**Virgins Blush**—Large semi-double, blush pink. A rare variety. Grafts.

52-C—**White Diakagura**—Imported variety from Japan. A flower somewhat resembling Alba Superba. Very fine.

53-C—**White Hibiscus**—Similar to Imura, large pure white, single to semi-double. Crinkled. Early.

54-C—**Josephine Duell**—Soft pink, semi-double, loose form. Late. 3'-4'.

55-C—**Judge Barrett**—A very large brilliant red. Mid-season.

RARE CAMELLIAS

Group II

56-C—**Alba Superba**—Large semi-double white, showing stamens in center of bloom. Mid-season. To 4'.

57-C—**Apple Blossom**—Single. Apple blossom odor and coloring. Very fine. To 6'.

58-C—**Akebono**—A semi-double salmon-pink, flower, exquisite formation, petals stand apart. Mid-season flowering. To 5'.

59-C—**Akebono Variegated**—Same as above, except the ground color is white with pink stripes. To 4'.

60-C—**Arajishi**—Full peoniform, deep pink to red; very early. 8"-12".

61-C—**Campbell Ashley**—Deep red, semi-double. Crepe like petals. Late, very good. To 3'.

62-C—**Cardinal Richelieu**—Large, semi-double dark red, irregular construction, stamens intermixed. Mid-season to late. 24"-30".

63-C—**Catherine Cathcart**—Late flowering full double pink marbled with white. Round light green foliage, slow growth. 24"-30".

64-C—**Christine Lee**—A pleasing semi-double light pink flower similar to *Grandiflora Rosea* (Empress), 12"-18".

65-C—**C. M. Hovey**—A full double dark red marbled and speckled with snow white. Flower is 4" to 5" in diameter, very large petals, slow bushy grower. All sizes.

66-C—**Colleti Maculata**—A peony form flower, blood-red and marbled with snow white. Very slow growth. Low and flat. 15"-18".

67-C—**Colonel Firey**—Full double, brilliant red, very symmetrical; late; beautiful foliage; rapid growth; one of the finest Camellias. To 36".

68-C—**Cup of Beauty (Tasse de Beau)**—Semi-double, pink. As blooms begin to open the outside petals with the very tight center bud resemble a cup and saucer. This center bud opens later, showing quantities of stamens. Compact grower. To 36".

69-C—**Dante**—An imbricated pure white form with golden stamens at the base of each petal. A low, spreading grower. 12"-15" only.

70-C—**Debutante—Peonyform**—An exquisite shade of delicate pink. Very early. The best peoniform and one of the loveliest pinks. Excellent for cut flowers and pot culture. To 3'-7'.

71-C—**Derebyana**—A double red; flowers 4"-4½" in diameter. To 6'.

72-C—**Eleanor McCrady**—Pink, very large semi-double. Loose, exhibition and garden variety.

73-C—**Empress**—An immense semi-double deep pink flower with golden stamens in center; glossy, deep green foliage. Tall, slow growth. Early flowering. To 24"-30".

74-C—**Emperor of Russia**—Very large, brilliant red flowers of peony form, golden stamens among inner twisted petals. Slow, bushy growth. To 12"-15" and 15"-18".

75-C—**Ethington White**—Large semi-double white, petals tissue-paper like texture. Mid-season bloomer. To 30"-36".

76-C—**Fanny Bollis**—Very large semi-double dark red variegated with white. Golden stamens in center of flower. To 42".

77-C—**Gerodoni Franchetti**—Large peony form white blossoms. Flecks of pink. 18"-24".

78-C—**General Washington**—Semi-double white with occasional deep pink dots or markings. White always predominates. To 4'-5'.

79-C—**Gigantea**—Immense semi-double deep red stripe and marbled with white. Late flowering. Immense dark green leaves, tall, open growth. To 42".

80-C—**Governor Mouton**—Late flowering peony form, deep red marbled white; medium growth; dark leaves. To 3'.

81-C—**His Majesty**—Medium to large, semi-double red; stamens in center. To 3'.

JENKINS' CAMELLIA GARDENS

82-C—**Kumasaka**—Large, very fine peony form flowers of deep pink. Very early bloomer. One of the finest Camellias. 5'.

83-C—**K. Sawada**—Large full double white, mid-season to late. A magnificent double white Camellia. 2'.

84-C—**Liberty Bell**—Very large single to semi-double white. Very fine. 18"-24".

85-C—**Lady Van Sittart Variegata**—One of the most beautiful of variegated Camellias. Semi-double flower. 3½" to 4" in diameter, often reaches 5". To 4'.

86-C—**Luric's Favorite**—Lavender-pink. Unusual color, pleasing; early to mid-season. To 3'.

87-C—**Madam Chiang Kai-Shek**, variegated, large semi-double, red and white. 18"-24".

88-C—**Marchioness of Exeter**—Peoniform, light pink and white. Oftimes solid pink. 4'.

89-C—**Mathotiana, Rubra**—An immense double deep red flower when fully open, some show short stamens in center of bloom; dull green foliage. Fast, tall growth. Mid-season. To 6'.

90-C—**Mikenjaku**—A very large semi-double rose-pink marbled with white. 18"-24".

91-C—**Monjisu** —(**California Donkelaari**)—Semi-double; fairly symmetrical; a very startling shade of red. May be either solid red or have white blotches. 12"-18".

92-C—**Mrs. Charles Cobb (E)**—Large, peony form of very dark red. Vigorous and spreading.

93-C—**Pink Herme**—Like Herme, except solid pink. To 18"-24".

94-C—**Princess Bachinachi**—Full double dark red flowers of good size, marbled with white. Tall, fast growth. To 5'.

95-C—**Principessa Clotilda** —(**II Tramento**)—Imbricated, deep pink mottled white. 18"-24".

96-C—**Pink Star**—Semi-double, bright rose-pink flowers of delicate coloring. Very desirable. 18"-24" and 24"-30".

97-C—**Rev. John G. Drayton**—A loose peony form of pleasing deep pink color; petals are wavy, intermixed with golden stamens; tall, angular growth, light green foliage, early bloomer. To 48".

98-C—**Rosea Plena**—Rose-pink full double; darker veins. Mid-season.

99-C—**Rose Hill Red**—Semi-double to full double; late. Good garden variety.

100-C—**Sergeant Barros**—Large, semi-double pink. Petaloids with stamens. Desirable. 24"-36".

ADAMS RUN, S. C.

101-C—**Snow Drift**—A very beautiful, large, semi-double, pure white. Very showy. 36".

102-C—**Speciosa (Giante de Battailes)**—Peoniform crimson and white. This Camellia is a Prof. Sargent variegated. To 36".

103-C—**Sweeti Vera**—Large, loose peony form flower. Flesh pink, streaked rose; dull green foliage, slow growth. Mid-season bloomer. To 18"-24".

104-C—**Triphosa**—Large semi-double white. Crepe De Chine petals. One of best whites. Blooms in coldest weather. Very rare. Sizes 18"-24".

105-C—**Variegated Daikakura**—Large, full peony form flowers; deep pink marbled with white. A very early bloomer. Slow, tall growth. 12"-15" and 2'.

106-C—**Vallevareda**—Very symmetrical, deep pink, outer petals shading to light pink, inner petals extremely double. 24"-30".

107-C—**Wm. Middleton**—Red, large semi-double. Mid-season. 18"-24".

CAMELLIA SASANQUA

The Japanese species is one of our most handsome fall-blooming evergreens. Foliage rather smaller than *C. Japonica*, and the plant is of more rapid growth. Blooms here in October and November.

Apple Blossom—Single apple blossom color.

Fugi-No-Mile—Semi-double white with yellow stamens.

Pink and White Variegated.

Single Blush—Light pink.

Single Pink—Resembles the pink Cherokee rose.

Single Red—Deep red.

Single White—Petals edged pink.

Prices on all Sasanquas:

	Each
3' to 4'	\$5.00
2' to 3'	3.00
18" to 24"	2.00
15" to 18"	1.50
12" to 15"	1.00

INDICA AZALEAS

WHITE INDICA AZALEAS

Indica Alba—Tall, fast growing, pure white; leaves dull green. Mid-season.

Fielders White—Slow growing, bushy, large single flowers; the best White Azalea; mid-season.

Mati Pan—A very fine large flowered white.

Formosa—Greatest of all Azaleas. Large, purplish-pink flowers; bush grows large and shapely. Darkest green foliage of all Azaleas. Easy to grow. Late bloomer. All sizes.

Phoenicia—Similar in color to Formosa, but bush grows very compact and rounded. Late. All sizes.

Matapan—Largest white. Very fine.

Early Orchid—A tall light early-blooming lavender; loose grower.

PINK INDICA AZALEAS

Elegans—Tall, fast growing, clear pink, early flowering; light green leaves.

George Franc—Slow growing, bushy; large salmon-pink flowers with rose throat; early.

Pride of Summerville—Tall, salmon-pink; excellent.

RED INDICA AZALEAS

Dixie—This salmon-red is one of the finest of the Indica Azaleas. Mid-season.

Geo. L. Taber—Our finest variegated Azalea. Blush-pink with markings of deeper pink and red. Tall, large; late. 8"-12" and 12"-15".

Iveryana—The favorite variegated Azalea. Large, white flowers, striped pink and orange. Of spreading habit; late. 8"-12" and 12"-15".

Lawsal—Bright salmon-pink. Tall, bushy grower; late.

Duc de Rohan—Medium-sized; salmon-pink. Early. All sizes.

Elegans Superba (Pride of Mobile)—Low, bushy growing; watermelon-red flowers of large size; mid-season; dull green leaves.

Harry Weitchi—Slow grower. Late; brilliant rose with crinkled petals.

President Clay—Fast upright grower with orange-red flowers. Blooms in mid-season and is good kind.

Prince of Orange—A brilliant, deep orange-red, compact; late blooming.
